

A diagram illustrating an attack pattern on a grid. The grid consists of 5 columns and 4 rows of characters. The characters are 'x' and '0'. A white arrow points from the 'x' in the second row, third column to the '0' in the third row, fourth column. Another white arrow points from the 'x' in the first row, fourth column to the '0' in the third row, fourth column. A third white arrow points from the 'x' in the second row, second column to the '0' in the third row, second column. A fourth white arrow points from the 'x' in the second row, third column to the '0' in the third row, third column. A fifth white arrow points from the 'x' in the second row, third column to the '0' in the fourth row, third column. A sixth white arrow points from the 'x' in the second row, third column to the '0' in the fourth row, fourth column. A seventh white arrow points from the 'x' in the second row, third column to the '0' in the fourth row, fifth column. A eighth white arrow points from the 'x' in the second row, third column to the '0' in the fifth row, third column. A ninth white arrow points from the 'x' in the second row, third column to the '0' in the fifth row, fourth column. A tenth white arrow points from the 'x' in the second row, third column to the '0' in the fifth row, fifth column.

		x	x	x	
x	x	x			x
			x		
0	0	0	0	0	0
		0	0	0	

Attack Pattern
